

Academic Writing Skills Seminar

for Graduate Students & Young Researchers

This seminar covers fundamental academic writing skills which can be applied to any field. You will learn about timeline and how to manage your schedule up to journal publication, how to choose appropriate journal, and how to promote your article through social media which is recent trends today. The lecturer from one of the largest journals publishers will tell you the most up-to-date know-how regarding journal paper publication. 2016 SAGE Award winner will tell you her experience from manuscript preparation and submission process leading to publication. University Library will offer information regarding fast-growing open access publication and how to submit to open access journals. Please make sure to stay till the call for applications for 2017 SAGE Award is announced.
